

Me and My School!

By Ms. Moore and Alec

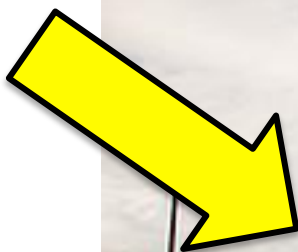

This is me!

Hi!
I'm A.

This is my school!

**Mc Math
Secondary**

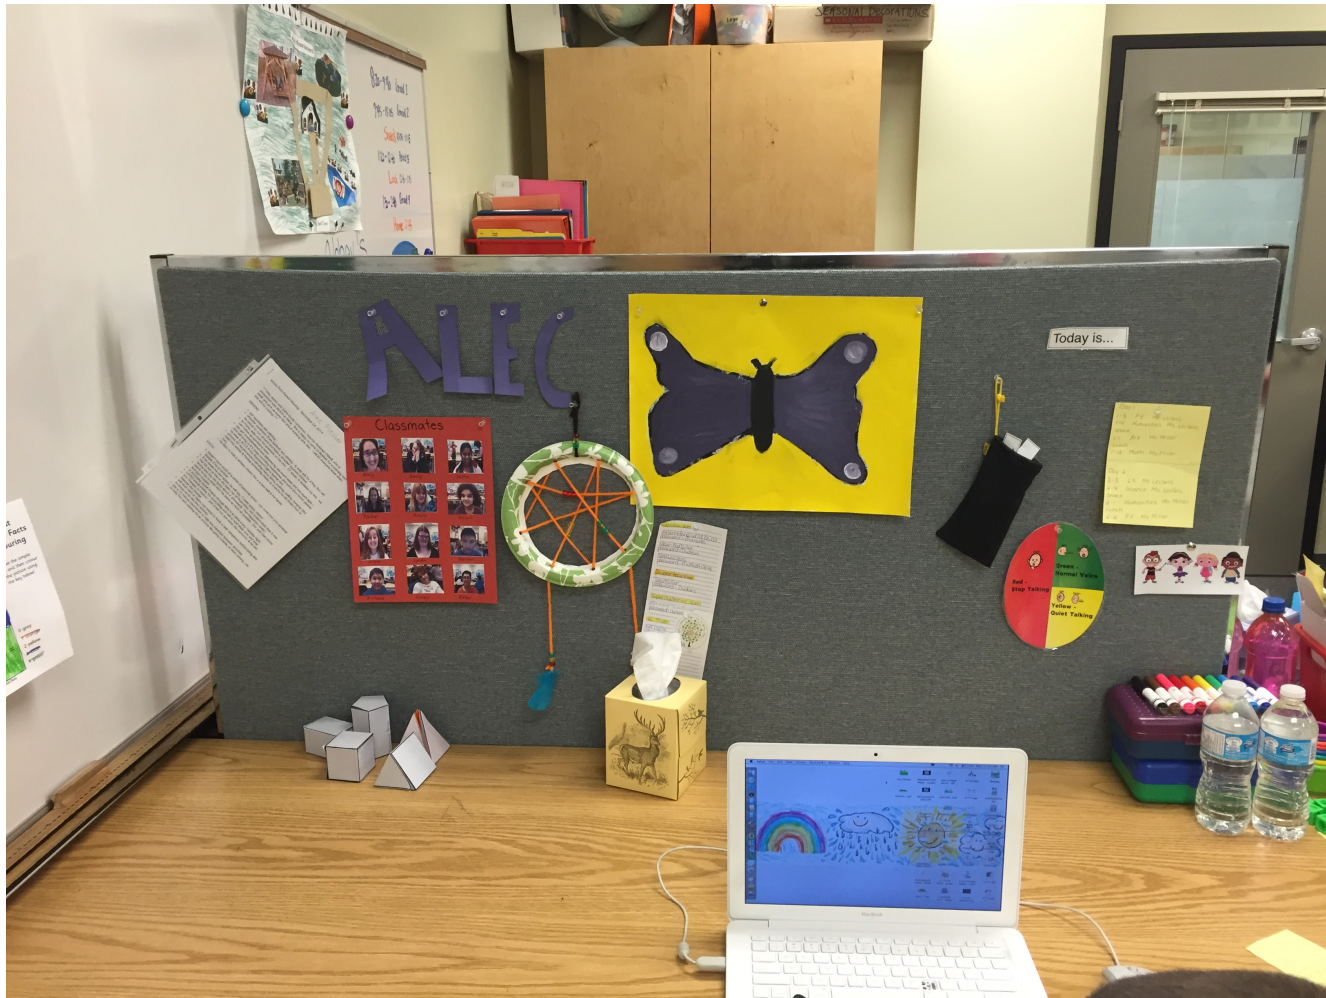

This is the hallway.

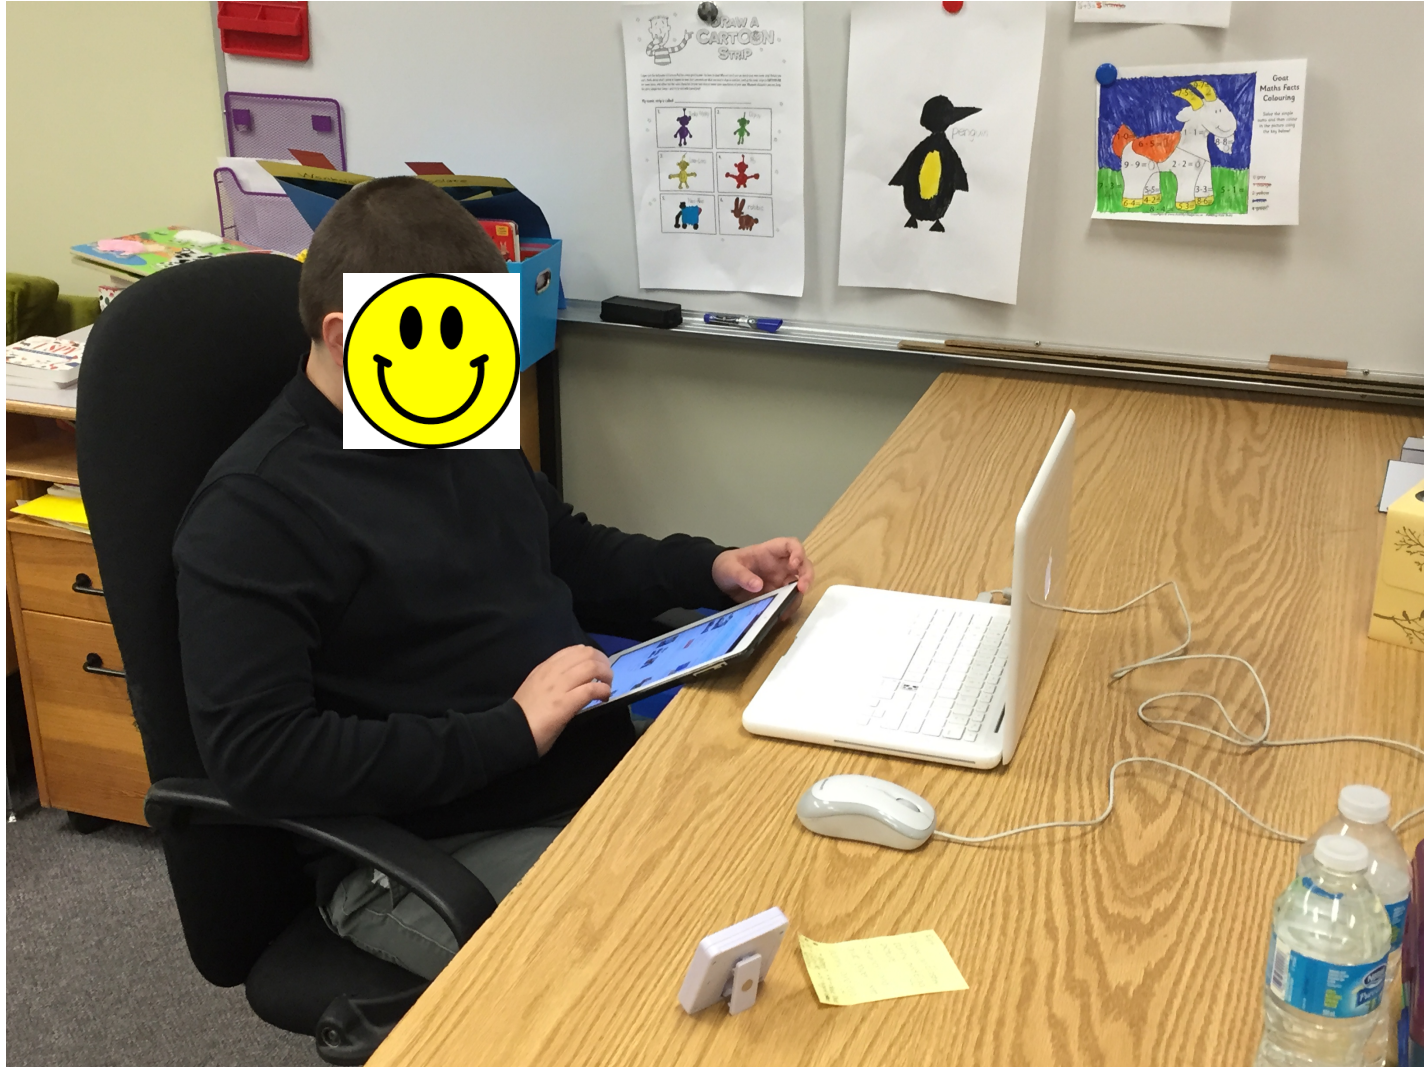

This is my classroom.

This is where I work.

I work very hard at school.

I like at working on my iPad at school.

I like working on my art at school.

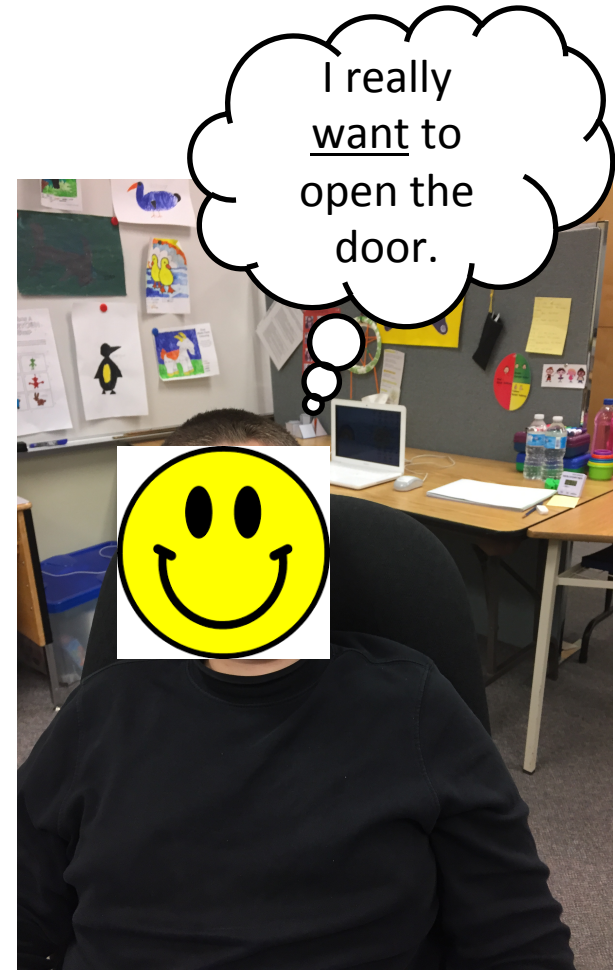

I also like opening and closing doors at school.

There are SO many doors to open and close at my school.

Sometimes a door is closed...

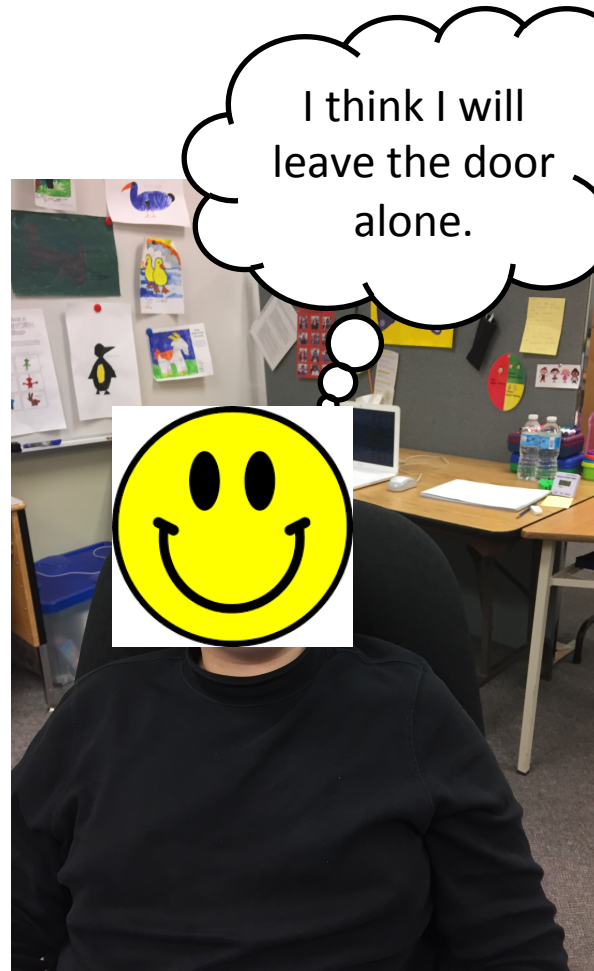

... and I want to open the door.

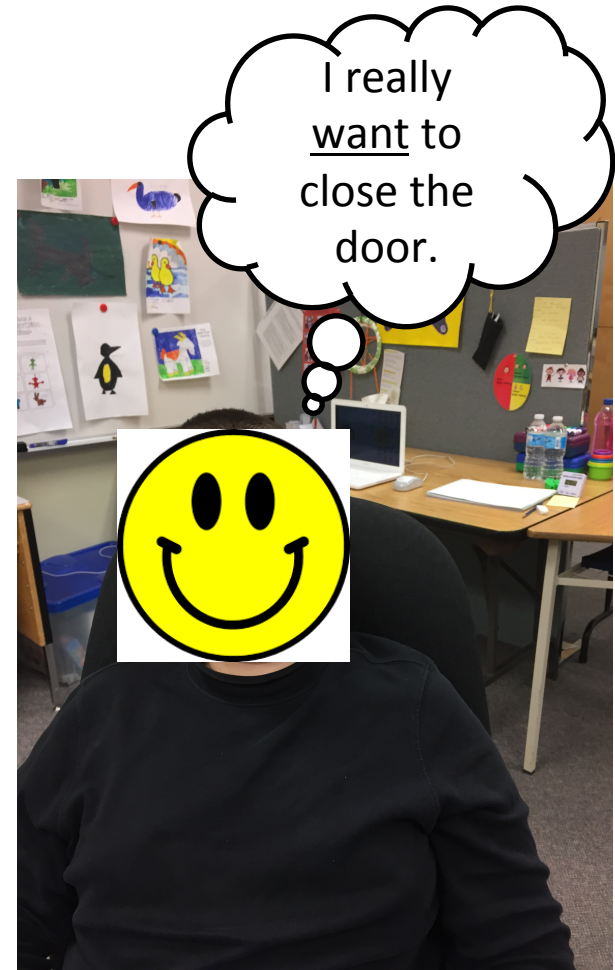

If the door is closed, it means students are working hard and they would like it quiet.

I don't want to bother the students.

Sometimes a door is open...

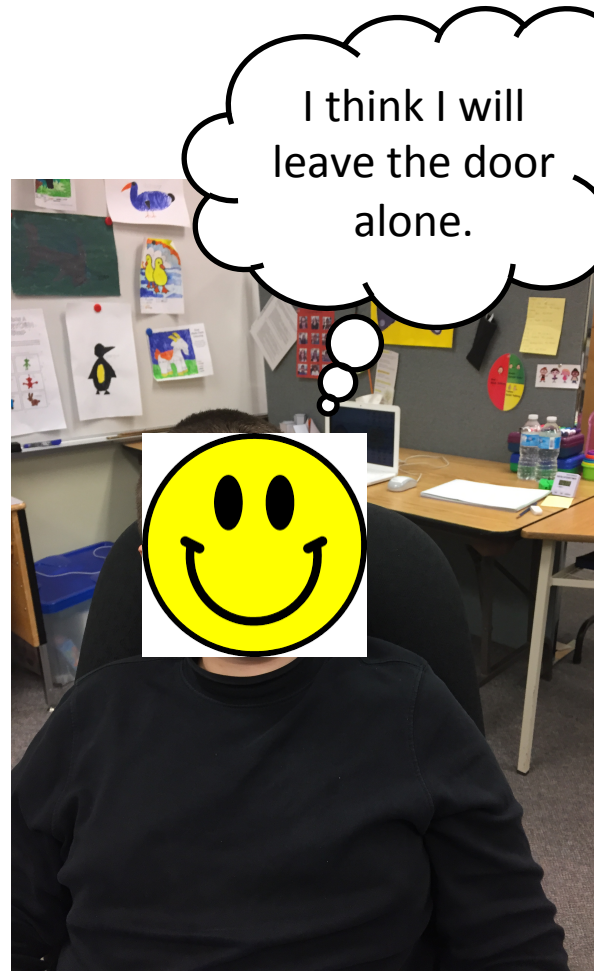

... and I want to close the door.

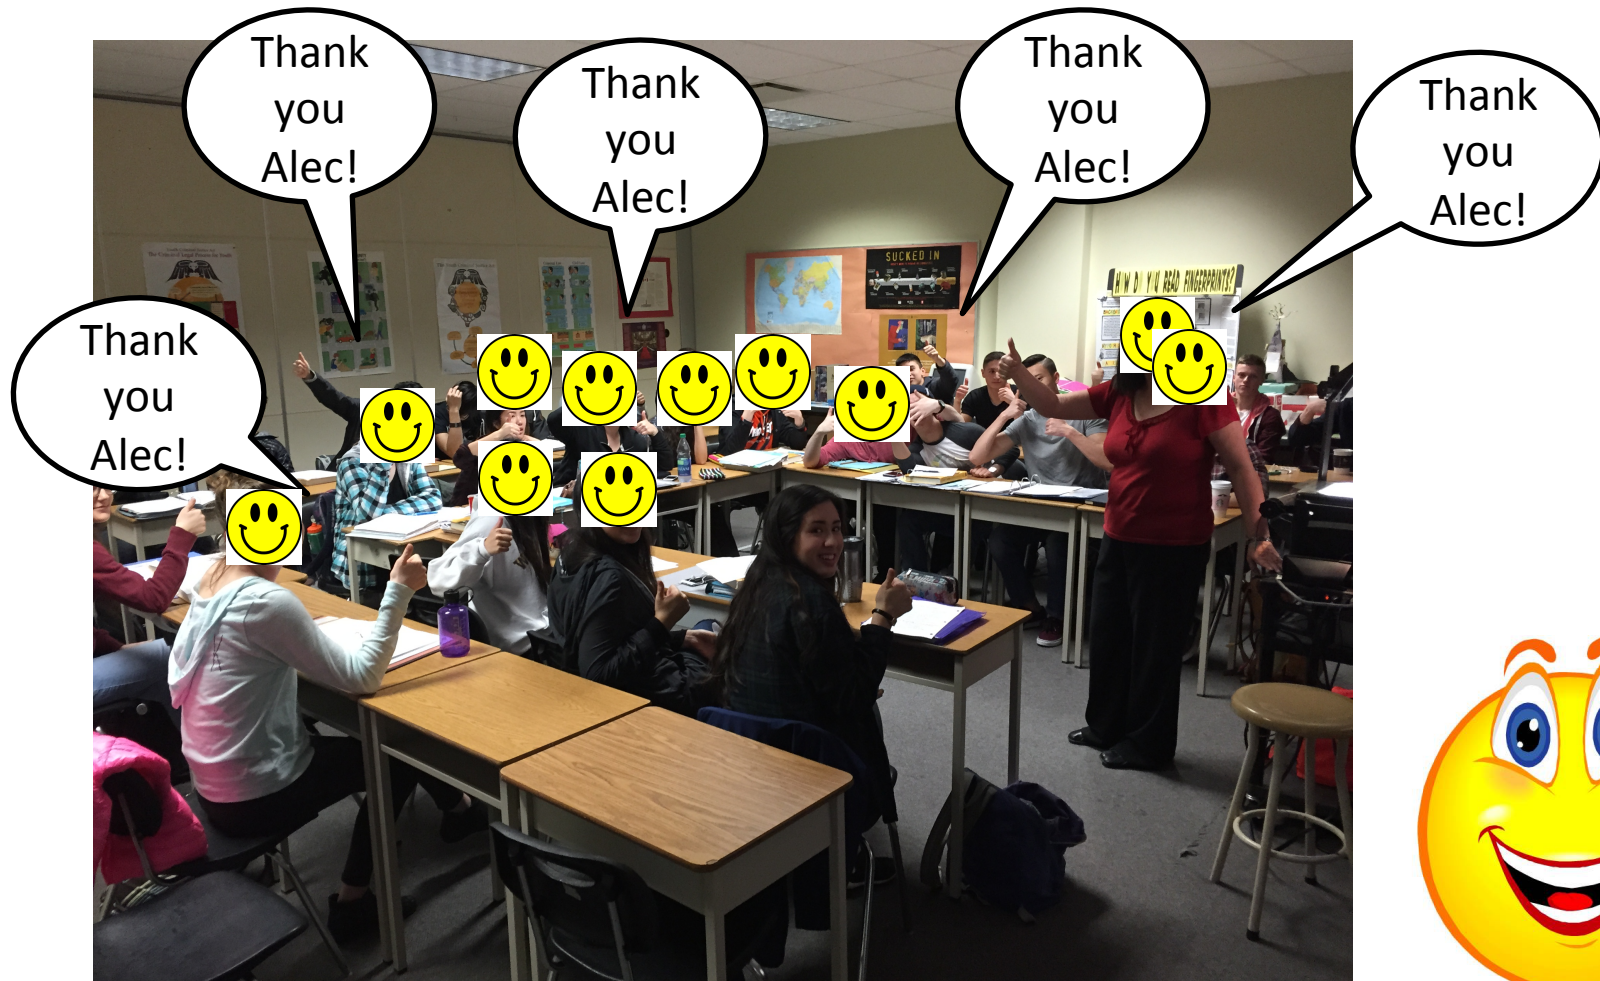

But if I close the door it will be very loud.

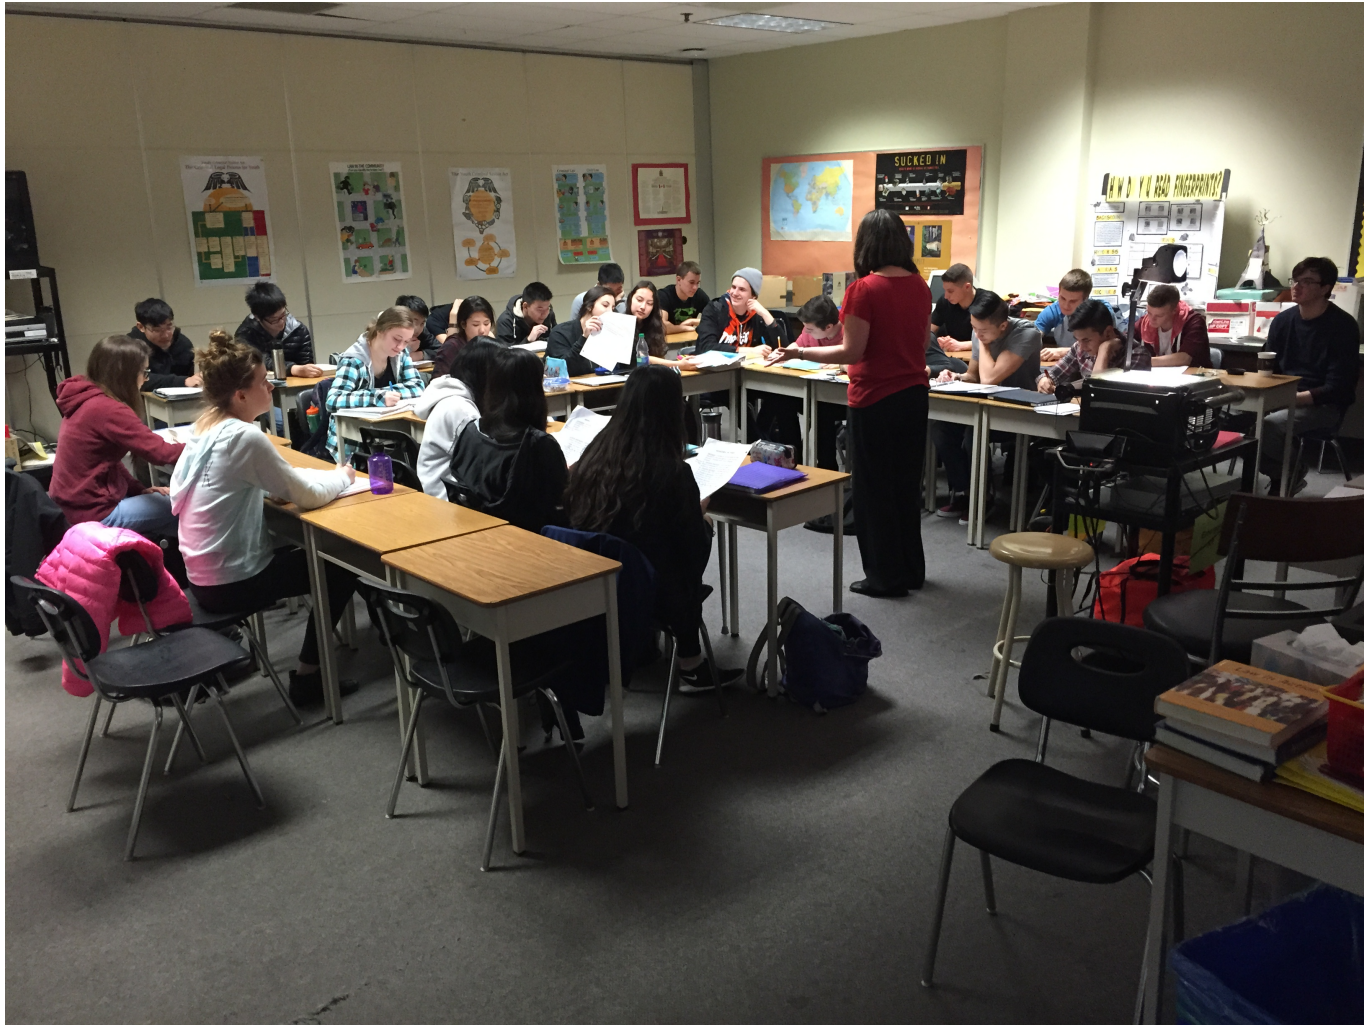

I don't want to bother the students.

Teachers and students will be VERY proud if I leave their door alone.

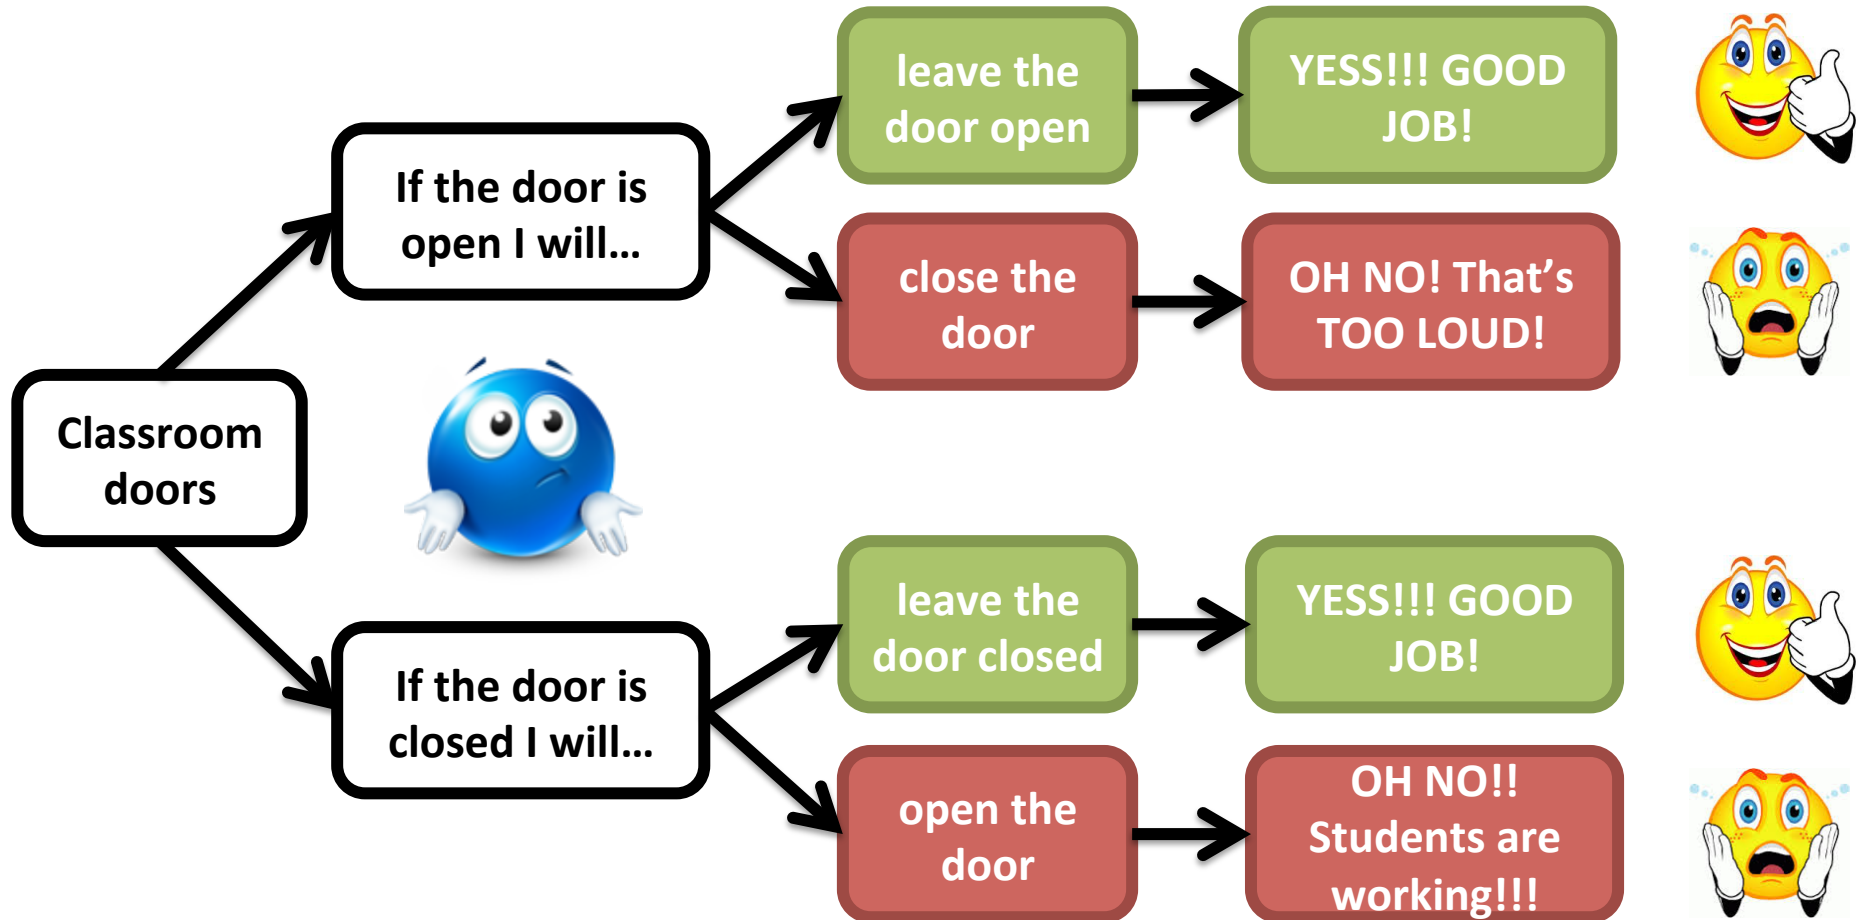

Because they are working VERY hard like me.

But how will I remember all of this!?

Classroom Doors: What do I do?

Let's practice!

Here is a door!

It is closed.

What should you do?

It is open.

What should you do?

Here is another door.

What should you do?

Here is another door.

What should you do?

Here is another door.

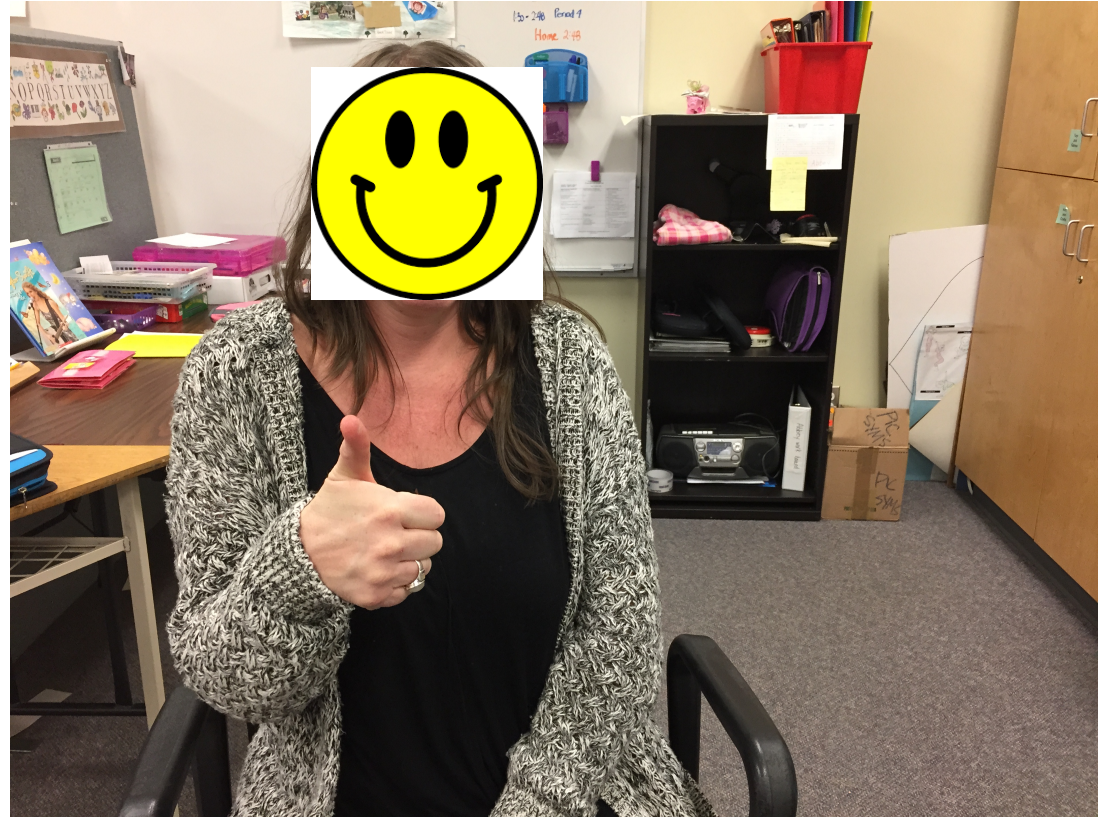

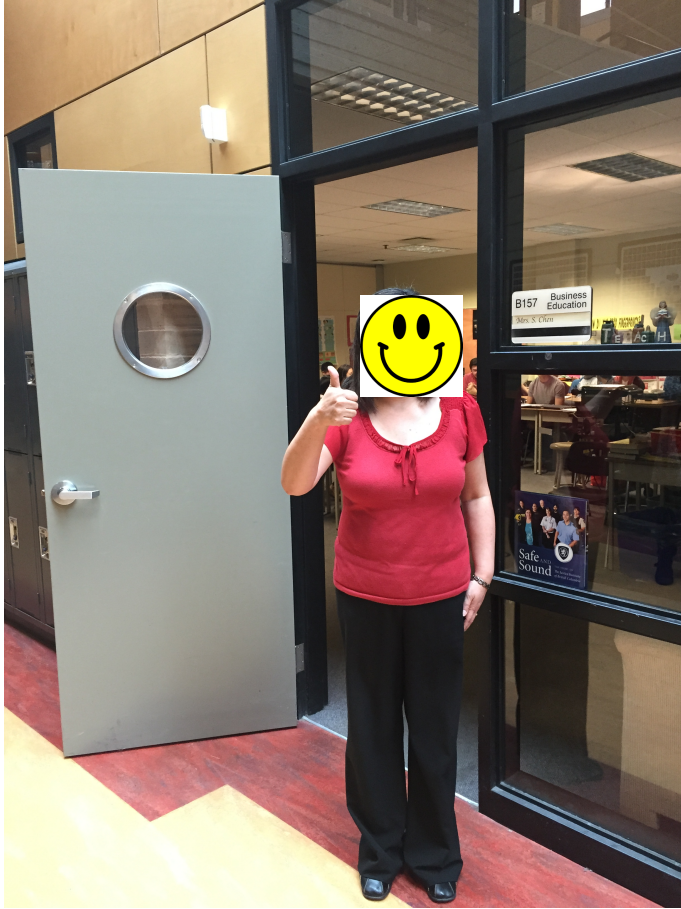

What should you do?

And don't forget!

You can always ask an adult for help!

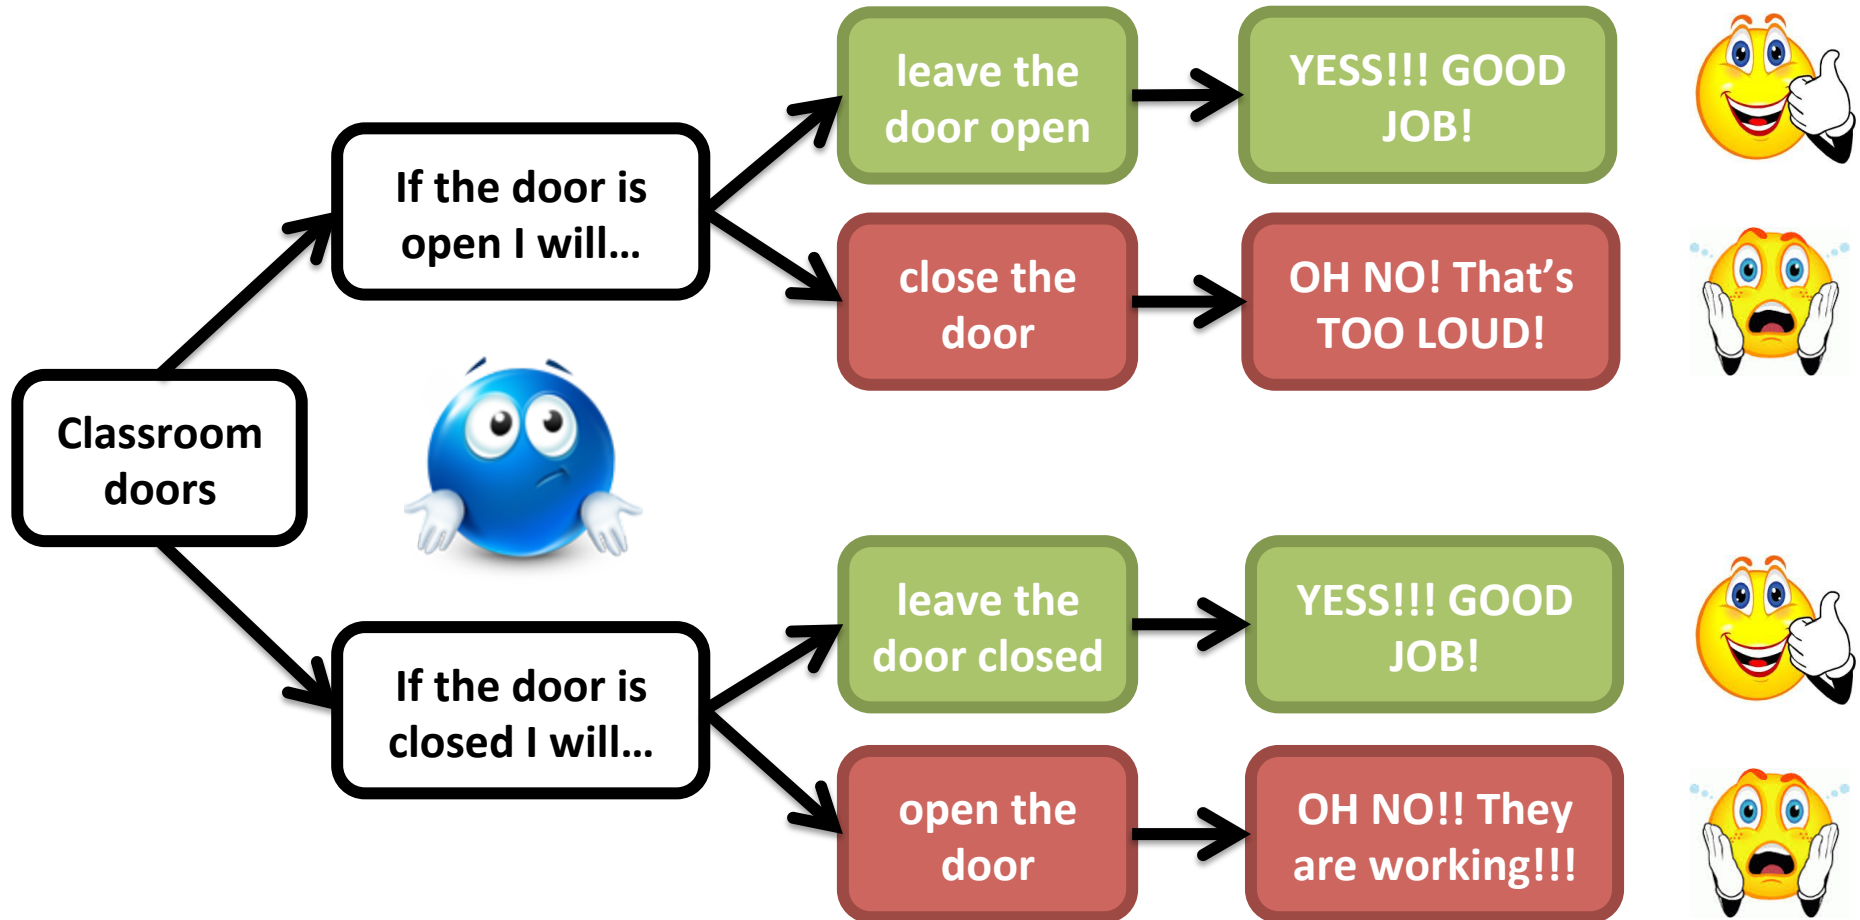

Great Job Alec!

We are all PROUD of you!

Let's go for a walk and practice!

Classroom Doors: What do I do?

Classroom Doors: What do I do?
